

A MESSAGE FROM SCAC

APPEAL IN RESPONSE TO COVID 19

Every day we are all hearing the news that these are 'unprecedented' times.

NEVER HAVE WE NEEDED OUR NHS MORE THAN WE DO RIGHT NOW.

I know from my colleagues at SCAS just how challenging things are for them and of course, for many of you affected by COVID 19.

So many wonderful members of the public have shown their support for our staff and volunteers by gifting everything from biscuits and chocolate to toilet rolls and soap! Thank you to everyone who has done so.

IT IS HEART-WARMING FOR OUR TEAMS TO KNOW HOW MUCH YOU ALL VALUE AND APPRECIATE THEM.

Our Charity funds equipment, uniform and training for our Community First Responders and Co-Responders and we also help to create better working environments for our frontline staff. None of these areas receive any NHS funding and we are reliant on your generosity to continue to support all of them.

AND NEVER BEFORE HAVE WE NEEDED OUR VOLUNTEERS AND STAFF OR WANTED TO SUPPORT THEM AS WE DO NOW.

I know that many of you will be facing financial uncertainty of your own and may not feel able to donate to us at this time. We understand this. But if you can and would like to help us to support our ambulance service then please visit our website www.sca-charity.org.uk or www.justgiving.com/campaign/scaspublicappeal where you can give if you would like to.

As previous supporters of our Charity we are already indebted to you and thank you sincerely for your generosity. We appreciate all your help and your words of encouragement and support for our staff and volunteers and wish you all a safe journey through these difficult times.

With best wishes

Vanessa Casey, SCAS Charity CEO
